Education

Sri Shakthi Institute of Engineering and Technology , B.Tech in Artificial Intelligence & Machine Learning	2023 – Present
• CGPA: 8.38/10.0	
Universal Matric Higher Secondary School , (HSLC) - Score: 87%	2021 – 2023

Technologies

AI & ML: Python, Scikit-learn, PyTorch, OpenCV, NumPy, Pandas, LLMs, MLflow, Airflow
Development: FastAPI, Flask, Django, React, Tailwind CSS, Docker, Git, GitHub, Linux, Nginx
Databases: MySQL, MongoDB, Redis, SQLite

Experience

LLM Post-Training Intern , Ethara AI	Feb 2026 – April 2026
• Processed and annotated multimodal datasets (text, image, video) for Supervised Fine-Tuning and Reinforcement Learning from Human Feedback.	
• Evaluated AI-generated responses using defined guidelines to support model quality, accuracy, and alignment.	
AI & ML Intern , Elevate Labs	May 2025 – Jun 2025
• Conducted data preprocessing, feature engineering, and trained machine learning models using Python and Scikit-learn.	
• Built and optimized a CNN-based face mask detection model in TensorFlow, achieving 95.10% test accuracy.	

Projects

Customer Churn Prediction – ML Pipeline	🔗 Link
• Built an automated ML pipeline for telecom churn prediction using Airflow for workflow orchestration and MLflow for experiment tracking.	
• Served the model through a FastAPI service and containerized the full workflow using Docker.	
• Tech Stack: Python, Scikit-learn, MLflow, Airflow, FastAPI, Docker	
Facial Recognition Based Attendance System	🔗 Link
• Built an attendance management system using facial recognition for automated student tracking.	
• Developed backend with Django, integrated ML models for real-time face detection and verification.	
• Tech Stack: Python, Django, OpenCV, PyTorch, CNN	
FarmAssist – AI Agricultural Assistant	🔗 Link
• Created a multi-modal AI system with LLM advisory, RAG-based retrieval, and computer vision for pest/disease identification.	
• Integrated CLIP and Gemini with FastAPI backend and ChromaDB vector search.	
• Tech Stack: Python, FastAPI, CLIP, Gemini, ChromaDB, React Native	

Achievements

- Developed a face recognition-based attendance system as part of the student product development team, handling backend orchestration, ML service integration, model research and training support, and deployment on a physical server.
- Finalist in **Horizon'25**, a national-level 24-hour hackathon at KPR College.
- Finalist in **Yukta'24**, a national-level Code x Trade technical symposium.

Certifications

- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** - View Certificate
- **Deloitte Technology Job Simulation** Completed coding & development tasks - View Certificate
- Completed **TCS iON Career Edge – Young Professional** course - View Certificate
